### SHAPES AND COLORS

As your toddler picks up a block, say the name of the shape and the color too. Let's look around and find something that has the same shape or the same color? Which band on the cube matches the color?

### TACTILE FUN

Explore the textures of each block and describe how it feels. Feel it on your hand, rub it on your foot and cheek. How does it feel? Use adjectives like bumpy, smooth, round, ridges, chunky...

### THIS WAY OR THAT?

Help your child with the different shapes, moving them this way and that way to push between the bands to get inside the cube. How can we turn it to get it out?

### IN AND OUT

Use the cube and the blocks with your toddler to begin learning about prepositions. Place the blocks in and out, on top, beside, behind, in front, under, over...
